## UX and Front-End Web Designer and Developer

cameron.tebbenham@outlook.com    <https://www.linkedin.com/in/camtebsmall/>

### About Me

With a background in philosophy and literature and a love for technology, I am a creative and critical thinker who enjoys building interactive, informative and emotive digital experiences to improve the lives of others.

I am confident researching and writing for projects while persevering through problems by learning new techniques and solutions.

Communication  
Creativity  
Receptive to feedback  
Group Leadership  
Project Management  
Reliability  
Willing to learn

### Experience

#### 2023

- 01/2023 - Present  
Graduate Software Engineer at Xor Systems Ltd  
As part of a small but specialised team I have been working on a piece of live service software using Php, React, JS, database tools and more. My duties include bug-finding, bug-fixing and feature creation. I learnt to use company software such as Jira, Confluence and Bitbucket and kept documentation of my work.
- 10/2022 - Present  
Teaching Assistant at UWE University  
Semester 1 - UX year 2, Graphic and Web Design year 1  
Semester 2 - UX year 2

#### 2022

- 10/21 - 2022  
Developed the "Frome Valley Digital Trails" web application for the Winterbourne and Frome Valley Environmental Group - a local organisation tackling climate change at a local level.
- 10/21 - 2022  
Designed and developed a custom virtual museum webapp prototype for my final year university project using UX research and design, coded with React and various React libraries.  
(<https://camtebsmall-cctp-prototype.netlify.app/>)

#### 2021

- 02/21 - 05/21  
For my User Experience module at university, I designed a hi-fidelity mobile prototype in collaboration with Fruto Studio Oxford.  
(<https://frutostudio.co.uk/>)
- 06/21 - 11/21  
I independently designed, developed and maintained a live website blog tracking public test server changes for the as of then upcoming expansion for the MMORPG "Star Wars The Old Republic".

### Education

#### University of the West of England

BSc (Hons) Digital Media - graduated with a 1:1 (First Class)  
September 2018 - May 2022

Deans award for academic excellence 2021

Primarily technical / practical degree focused on the creation of digital content (web development, creative coding, media production, user experience)
